Required by law

### ACCEPTABLE USE POLICY FOR DISTRICT TECHNOLOGY RESOURCES

# **Scope of Policy**

Washington School District (WSD) provides access to technology devices, Internet, and data systems to employees and students for educational and business purposes. This **Acceptable Use Policy (AUP)** governs all electronic activity of employees using and accessing the district's technology, Internet, and data systems regardless of the user's physical location.

# **Guiding Principles**

- Online tools, including social media, should be used in our classrooms, schools, and central offices to increase community engagement, staff, and student learning, and core operational efficiency.
- WSD has a legal and moral obligation to protect the personal data of our students, families, and staff.
- WSD should provide a baseline set of policies and structures to allow schools to implement technology in ways that meet the needs of their students.
- All students, families, and staff must know their rights and responsibilities outlined in the Acceptable Use Policy and government regulations.
- Nothing in this policy shall be read to limit an individual's constitutional rights to
  freedom of speech or expression or to restrict an employee's ability to engage in
  concerted, protected activity with fellow employees regarding the terms and conditions of
  their employment.

### **Consequences of Breach of Policy**

Use of all WSD technology resources is a privilege, not a right. By using WSD Internet Systems and devices, the user agrees to follow all WSD regulations, policies, and guidelines. Students and staff are encouraged to report misuse or breach of protocols to appropriate personnel, including building administrators, direct supervisors, and to the **Office of Information Technology (OIT)**. Abuse of these privileges may result in one or more of the following consequences:

- Suspension or cancellation of use or access privileges
- Payments for damages or repairs
- Staff discipline under appropriate School District policies, up to and including termination of employment, subject to any collective bargaining obligations.
- Student disciplinary action, depending on the severity of the breach, could include a stern warning up to expulsion.
- Liability under applicable civil or criminal laws

#### **Definitions**

*Freedom of Information Act (FOIA)* - The FOIA is a law that allows for the release of government documents at the request of an individual. A FOIA request can be made to the Washington School District for electronic documents/communications stored or transmitted

GBEF/JICL/KD

Required by law

through district systems unless that information could be detrimental to governmental or personal interests. For more information, visit http://www.foia.gov/

Family Educational Rights and Privacy Act (FERPA) - The FERPA law protects the privacy, accuracy, and release of information for students and families of the Washington School District. personal data stored or transmitted by agents of the Washington School District must abide by FERPA laws, and WSD is required to protect the integrity and security of student and family information. For more information, visit

http://www.ed.gov/policy/gen/guid/fpco/ferpa/index.html.

Children's Internet Protection Act (CIPA) - Requires schools that receive federal funding through the E-Rate program to protect students from content deemed harmful or inappropriate. The Washington School District is required to filter internet access for inappropriate content, monitor the internet usage of minors, and provide education to students and staff on safe and appropriate online behavior.

#### **Communication & Social Media**

Employees and students are provided with district email accounts and online tools to improve the efficiency and effectiveness of communication, both within the organization and with the broader community. Communication should be consistent with the professional practices used for all correspondence. When using online tools, members of the WSD community will use appropriate behavior:

- A. When acting as a representative or employee of the Washington School District.
- B. When the communication impacts or is likely to impact the classroom or working environment in the Washington School District.

All communication sent by an employee using district property or regarding district business could be subjected to public access requests submitted through the Freedom of Information Act (FOIA). Users need to be aware that data and other material/files maintained on the school district's systems may be subject to review, disclosure, or discovery. Use of personal email accounts and communication tools to conduct school business is strongly discouraged and may open an individual's personal account to be subject to FOIA inquiries. WSD will cooperate fully with local, state, and federal authorities in any investigation concerning or related to any illegal activities or activities not in compliance with school district policies or government regulations.

#### **Guidelines for Online Communication**

- Communication with students should not include content of a personal nature.
- When communicating with parents/guardians of students, employees should use email addresses and phone numbers listed in the **Student Information System** (**SIS**) unless steps have been taken to verify that the communication is occurring with a parent/guardian that has educational rights for the student.
- When communicating with a parent/guardian, refrain from discussing any non-related students when possible.

Required by law

- Employees who use internal or external social media (blogs, Twitter, etc.) are
  expected to refrain from discussing confidential information and/or discussing
  specific students. Information that can be traced back to a particular student or
  could allow a student to be publicly identified should not be posted on any social
  media sites.
- When using social media, employees are expected to refrain from posting any negative comments online about students.
- Employees are required to notify their appropriate administrator before setting up an online site to facilitate student learning. Employees are encouraged to monitor/moderate online communication to the best of their abilities.
- Employees are advised not to add any students/former students or parents as 'friends' or contacts on social media unless the site is expressly set up to support classroom instruction or school business.
- Employees may communicate with WSD graduates (+18 years old) on social media but should be advised to maintain professionalism and caution when communicating online.
- Employees are encouraged not to add parents/guardians of students as 'friends' or contacts on social media to maintain professionalism and to avoid any appearance of a conflict of interest.
- Avoid responding to spam or phishing attempts that require a user to click on any links or to provide any account information. Note: WSD will never ask for a user's account password for any purpose and users are advised to report any suspicious requests for account information directly to the OIT Help Desk.

#### **Solicitation**

The WSD prohibits web announcements and online communication promoting a business. The Superintendent's Office may make exceptions if benefits are judged sufficient to merit exception.

### **Use of Copyrighted Materials**

Violations of copyright law that occur while using the WSD network or other resources are prohibited and have the potential to create liability for the district as well as for the individual. WSD staff and students must comply with regulations on copyright plagiarism that govern the use of material accessed through the WSD network.

Users will refrain from using materials obtained online without requesting permission from the owner if the use of the content has the potential of being considered copyright infringement. WSD will cooperate with copyright protection agencies investigating copyright infringement by users of the computer systems and network of the Washington School District.

#### **Network Usage**

Network access and bandwidth are provided to schools for academic and operational services. WSD reserves the right to prioritize network bandwidth and limit certain network activities that are negatively impacting academic and operational functions. Users are prohibited from using

GBEF/JICL/KD

Required by law

the WSD network to access content that is inappropriate or illegal, including but not limited to content that is pornographic, obscene, illegal, or promotes violence.

# **Network Filtering & Monitoring**

As required in the Children's Internet Protection Act (CIPA), WSD is required to protect students from online threats, block access to inappropriate content, and monitor the Internet use by minors on school networks. OIT is responsible for managing the district's Internet filter and will work with the WSD community to ensure the filter meets the academic and operational needs of each school while protecting minors from inappropriate content.

By authorizing use of technology resources, WSD does not relinquish control over materials on the systems or contained in files on the systems. There is no expectation of privacy related to information stored or transmitted over the WSD network or in WSD systems. WSD reserves the right to access, review, copy, store, or delete any files (unless other restrictions apply) stored on WSD computers and all employee and students communication using the WSD network. Electronic messages and data stored on WSD computers or transmitted using WSD systems may be treated like any other school property. District administrators and network personnel may review files and messages to maintain system integrity and, if necessary, to ensure that users are acting responsibly. WSD may choose to deploy location tracking software on devices for the sole purpose of locating devices identified as lost or stolen.

#### **Personal Use**

WSD recognizes that users may use WSD email, devices, and network bandwidth for limited personal use; however, personal use should not interfere with or impede district business or cause an additional financial burden on the district. Excessive use or abuse of these privileges can be deemed in violation of the Acceptable Use Policy.

# **Network Security**

The WSD Wide Area Network (WAN) infrastructure, as well as the building-based Local Area Networks (LANs), are implemented with performance planning and appropriate security measures in mind. Modifications to an individual building network infrastructure or use will affect LAN performance and will reduce the efficiency of the WAN. For this reason, any additional network electronics including, but not limited to, switches, routers, and wireless access points must be approved, purchased, installed, and configured solely by OIT to ensure the safety and efficiency of the network. Users are prohibited from altering or bypassing security measures on electronic devices, network equipment, and other software/online security measures without the written consent of the Information Security Officer.

# **Data & Systems**

Access to view, edit, or share personal data on students and employees maintained by WSD central offices, individual schools, or by persons acting for the district must abide by local, state, and federal regulations, including the Family Educational Rights and Privacy Act. Student and staff information and data may only be shared with individuals deemed eligible to have access by the person(s) responsible for oversight of that data. Outside parties or non-WSD individuals requesting protected data must receive approval from the Office of the Legal Advisor and have a

GBEF/JICL/KD

Required by law

non-disclosure agreement with the WSD. Individuals requesting ongoing access to data through WSD systems are required to have a designated WSD administrator who will act as a "sponsor" to ensure the safety of the data.

#### **Electronic Transmission of Data**

When educational records or private data are transmitted or shared electronically, staff are expected to protect the privacy of the data by password-protecting the record/file and only using WSD systems to transmit data. Staff are also expected to ensure records are sent only to individuals with a right to said records and must take reasonable measures to ensure that only the intended recipients can access the data.

#### **Passwords**

Users are required to adhere to password requirements set forth by the Washington School District when logging into school computers, networks, and online systems. Users are not authorized to share their password and must use extra caution to avoid email scams that request passwords or other personal information.

### Media & Storage

All local media (USB devices, hard drives, CDs, flash drives, etc.) with sensitive data must be securely protected with a password and encrypted to ensure the safety of the data contained. OIT must approve the use of cloud-storage services for storage or transmission of files containing sensitive information. Users are encouraged to use WSD approved data/information systems for the storage and transmission of sensitive data whenever possible and avoid storage on local hardware that cannot be secured.

#### **Electronic Devices**

WSD defines electronic devices as, but not limited to, the following:

- Laptop and desktop computers, including like-devices
- Tablets
- Wireless email and text-messaging devices, i.e., iPod
- Smartphones
- Donated devices

#### **Device Support**

WSD provides necessary installation, synchronization, and software support for WSD-issued electronic devices. Devices must be connected to the WSD network regularly to receive up-to-date software and antivirus updates and for inventory purposes. Password protection is required on all WSD-issued electronic devices to prevent unauthorized use in the event of loss or theft. Users are responsible for making periodic backups of data files stored locally on their devices.

#### Loss/Theft

Users must take reasonable measures to prevent a device from being lost or stolen. In the event an electronic device is lost or stolen, the user is required to immediately notify appropriate

GBEF/JICL/KD

Required by law

school staff and their direct supervisor, local authorities, and the OIT). The WSD will take all reasonable measures to recover the lost property and to ensure the security of any information contained on the device.

# **Return of Electronic Devices**

All technology purchased or donated to the WSD is considered district property, and all equipment assigned to employees or students must be returned before leaving their position or school. All equipment containing sensitive information and data must be returned directly to OIT before it can be redeployed.

#### **Personal Electronic Devices**

The use of personal electronic devices is permitted at the discretion of the appropriate administrator and Information Security Officer. The WSD is not responsible for the maintenance and security of personal electronic devices and assumes no responsibility for loss or theft. The district reserves the right to enforce security measures on personal devices when used to access district tools and remove devices found to violate the AUP.

### **Energy Management**

WSD strives to reduce our environmental footprint by pursuing energy conservation efforts and practices. The district reserves the right to adjust power-saving settings on electronics to reduce energy consumption.

### **Technology Purchasing & Donations**

Technology hardware and software must be purchased or donated through OIT, unless OIT and the Business Office have granted prior approval. All technology purchases and donations must abide by WSD procurement policies and are subject to approval by OIT. Technology pricing can include additional expenses required to ensure proper maintenance and security, including but not limited to warranties, hardware/software upgrades, virus protection, and security/inventory software. Schools or departments applying for technology grants, funding, or donations must budget for any additional expenses associated with the requested technology and can be held responsible for any additional costs incurred.
